Hiring Manager

D.N.S. Technology Pvt. Ltd.

Kathmandu, Nepal

Dear Hiring Manager,

I am writing to apply for the **React Native Intern** position at **D.N.S. Technology Pvt. Ltd.** I am currently pursuing my Bachelor's degree in Computer Science and Information Technology (BSc.CSIT) at Academia International College and am highly enthusiastic about gaining hands-on experience in mobile application development with an established and innovative company like yours.

Your company's reputation in **Networking, Web and Mobile Development, and Software Solutions** deeply aligns with my interests and academic background. Although I am early in my career, I have completed multiple personal and academic projects including an **e-commerce platform**, a **custom portfolio system**, and a **WordPress-based blog site**, showcasing my ability to build functional interfaces and handle backend logic using **HTML, CSS, JavaScript, PHP, and MySQL**.

Recently, I have begun exploring **React.js** and **React Native** to expand my understanding of modern, cross-platform app development. I'm particularly excited to apply what I've learned in a real-world environment where I can improve through mentorship and collaborative teamwork.

What I bring to the table:

- A growing foundation in **JavaScript, React.js**, and RESTful API integration
- Passion for learning mobile development across **iOS and Android platforms**
- Knowledge of **Git/GitHub**, code debugging, and version control
- Strong communication, time management, and adaptability

I am inspired by D.N.S. Technology's commitment to excellence and innovation and would be honored to grow and contribute as part of your development team. I am eager to apply my knowledge, learn from experienced professionals, and support impactful mobile projects during this internship.

Thank you for considering my application. I have attached my resume for your review, and I would be grateful for the opportunity to further discuss how I can contribute to your team.

Sincerely,

Rojesh Humagain
